

Bauxite Hills August Production Results

Metro Mining (ASX: MMI) is pleased to provide production and shipping results for the month of August.

Bauxite Hills Production Results

Period	July	August	QTD	YTD	2019 Guidance
Bauxite Mined (WMT) ('000)	443	476	919	1,818	3,300 – 3,500
Bauxite Shipped (WMT) ('000)	463	455	918	1,754	3,300 – 3,500
Bauxite Mined (WMT per day)	14,286	15,356	14,821	n/a	N/A
Bauxite Shipped (WMT per day)	14,923	14,689	14,806	n/a	N/A

August was another consistent month for Bauxite Hills with tonnes mined and shipped only marginally less than July's result. The continued high levels of operational performance at the mine highlights the positive impact of upgrading the haulage and transshipment fleets and duplicating the screening capability over the wet season.

The Bauxite Hills team continue to perform strongly with the operation now performing at above budgeted levels.

Metro Mining Managing Director and Chief Executive Officer, Mr Simon Finnis, said:

"The mining and shipping results continue to be pleasing and reflect the dedication and hard work of the entire on-site team. It is a credit to them that we're maintaining our recent strong results, building on our operating experience and the improved work systems which have enhanced our productivity.

The mine is ideally placed to maintain current levels for the remainder of the operating year and is on track to meet production and shipping guidance of 3.3-3.5M WMT for 2019".
