July mining was slightly ahead of budget and in line with performance achieved year to date. Shipping was marginally down due to two days lost as a result of a belt replacement on the barge loading facility and some downtime as a result of unusually high swell conditions for this time of year. Compared with the same time last year Metro exceeded on its shipping and recorded an increase of 31%.

Metro Mining Managing Director & Chief Executive Officer, Simon Finnis, said:

*“Operational performance remains solid and I commend the team on site for remaining committed to outstanding performance whilst ensuring safety remains at the forefront during these unprecedented and unsettling times. “*
